Moscow State University of Service—BS, Information Systems & Technology

Certified Information Systems Security Professional (CISSP)

Cisco Certified Networking Associate (CCNA; CCNA Wireless; CCNA Security)

Microsoft Certified IT Professional Enterprise Administrator (MCITP EA)

Microsoft Certified System Engineer (MCSE)

Alexander is a highly skilled Information Technology professional with significant experience in network engineering, project management, information and systems security, and IT operations. For the past 8 years Alexander specialized in the management of IT systems in a medical services setting. He has been an advocate and early adopter of the tools and techniques necessary to integrate IT into the clinical environments.

He began his information technology career in Russia, where he was a PC Operator at Kretor Company. He moved on to Technesis Company as a Network Administrator. Upon immigrating to the U.S. in 2004, he began working at SynQuest Laboratories in Alachua where he was a computer scientist.
