

Penny Ettinger, RN

## **Director of Nursing, Munroe Regional Medical Center**

University of Texas at El Paso – Bachelor of Science in Nursing

Webster University – Master of Business Administration

University of West Florida – currently enrolled in Master of Nursing for Leadership  
and Management

With 30 years of nursing experience, Penny has worked in a variety of hospital settings providing compassionate quality care to patients and families across the age continuum. In leadership and management for most of her career, she has had responsibility for up to 180 staff members at a time. Her experience includes emergency nursing as well as a wide variety of inpatient service lines. She has been active in quality initiatives throughout her career. Prior to her current role as Director of Nursing Services for Surgical /Ortho /Neuro, Medical and Neuro-diagnostics, she was Director of Staffing and Patient Placement and responsible for the flow of patients in a 421-bed facility, as well as the oversight of staffing for patient care services.

Penny is an advocate for the holistic approach to health and wellness where the focus is not only on the body but also on the mind and spirit.
